<sup>1</sup> Positives represent positive western blot tests, following seropositivity on Elisa tests.

<sup>2</sup> 20% of specimens were not tested.

<sup>3</sup> Study was suspended during this survey year with approximately 90% of samples tested.

<sup>4</sup> These figures represent only those women giving birth in Tennessee who were also residents of Tennessee. Totals differ from earlier reports which included all women giving birth in Tennessee.

<sup>5</sup> Total includes 4 HIV positive females whose race was not reported.
