

select a county health council. The basic steps of the Community Diagnosis process are as follows:

- **Assemble the initiating group**
- **Select the County Health Council**
- **Present data to the council**
- **Discuss and define health problems**
- **Analyze the Behavioral Risk Factor Survey**
- **Distribute and Analyze the Community Health Assessment Surveys**
- **Score/Rank health problems**
- **Design interventions**
- **Develop funding strategies**
- **Assess development and effectiveness of interventions**

During the course of the Community Diagnosis Process, the Clay County Health Council established by-laws (Appendix 2) that reflects the mission and goals of the council illustrating their commitment to their community. The council typically meets on the 2nd Monday of each month from 12:00 to 1:00 P.M. where meetings are open to the public.
