

3. Access to nursing home care
4. Access to hospitals
5. Access to physicians  
Access to dental care

### Stakeholder Survey

The Health Council elected to take advantage of the Stakeholders Survey that was available to them through the Community Development staff. The Health Council distributed the Stakeholders surveys in their community and the Community Development staff tabulated the results. The survey was designed to measure perception of the health care delivery system within the community.

A revised version of the Stakeholders Survey, which is now called the Community Survey, is still used in the Community Diagnosis process.

According to the Community Survey results (123 surveys were analyzed), the top five community health care issues in Coffee County were:

1. Child Abuse/Neglect Services
2. Recreational Activities
3. Day Care for the Homebound
4. Family Planning  
Adult Day Care
5. Specialized Doctors

The top three access to care issues were:

1. Transportation to Health Care
2. Access to Assisted Living
3. Access to Nursing Home Care

## **B. Secondary Data**

### Summary of Data Used

#### **Educational Attainment:**

At the time of the data gathering, education attainment in Coffee County for people 25 years of age and older is below the state level for high school degrees (65.1% for the county vs. 67.1% for the state) as well as for bachelor's degrees (15.3% for the county vs.
