

## Healthy People 2000 Objectives

In 1991, the Public Health Service of the U.S. Department of Health and Human Services published Healthy People 2000: National Health Promotion and Disease Prevention Objectives. That report was intended to assist both health providers and consumers in addressing measurable targets to be achieved by the year 2000. The data contained in this report addresses health status indicators for births, deaths, selected diseases, and external influences. The following is a comparison of the objectives to Smith County. The data used for Smith County is based on 1994-96 three year moving averages.

### Healthy People 2000 Compared to Smith County

Health Status Indicators	Smith County Rate	Tennessee Rate	Nation's Rate
<b>Death from all causes</b>	582.7	563.1	No Objective
