

APPENDIX IV (continued)

Postneonatal Death - A death of an infant 28 days or more but under one year of age.

Postneonatal Mortality Rate - Number of postneonatal deaths per 1,000 live births.

Pregnancy Rate - The number of live births, reported fetal deaths, and induced terminations of pregnancy per 1,000 females.

Race - The terms "white", "black", and "other races" are used to denote the racial groups. Definitions used for classifying race are those specified by the Bureau of the Census.

Resident Data - Data compiled according to the usual place of residence of the person to whom the event occurred without regard to the geographic place where the event occurred. For births, infant deaths, and fetal deaths, the residence is defined as the usual place of residence of the mother. (Resident data for Tennessee include events which occurred to residents of the State irrespective of where the events took place.)

Special Supplemental Food Program for Women, Infants, and Children (WIC) - A federally-funded, state-administered food program for pregnant, lactating or postpartum women and for infants and children, designed to provide nutrition education and prevent nutritional deficiencies.

Staffed Beds - The number of beds set up, staffed, and in use at the end of the facility's reporting period.

Turnover Rate - The average number of patients who were admitted to each bed in the facility during the reporting period, calculated as the number of admissions divided by the number of staffed beds.
