

DATA COMPENDIUM FOR TENNESSEE HEALTH STATUS REPORT, 1997

Collection of the majority of the raw data cited here was sponsored and performed by the TDH. The analysis and reporting of the data for this preview was conducted by the UTK CHRG. In addition to data analysis and reporting, the UTK CHRG conducted four of the surveys.

The Data Compendium is alphabetized by name of the study/data set.

- **Name of the Study/Data Set: Adult Behavioral Risk Factor Surveillance System, 1995**
Sponsor: Tennessee Department of Health
Source: Centers for Disease Control and Prevention
Description: This data set is based on a survey administered to a random sample of the general population of adults, ages 18-64, living in households in all 50 states. It provides general information about health risks, behaviors, and attitudes of those sampled. The survey is designed to provide uniform data to identify chronic disease risks and guide health promotion and disease prevention programs. Approximately 2000 interviews were conducted by telephone with respondents who were randomly selected from adult members of households in Tennessee.

- **Name of the Study/Data Set: Birth Data, 1989-1995**
Sponsor: Tennessee Department of Health
Source: Tennessee Department of Health , Certificates of Live Birth
Description: This data set includes information on all live births occurring in Tennessee as well as births occurring out-of-state to Tennessee residents. Basic demographic characteristics are available for the infant, as well as for the mother and father.

- **Name of the Study/Data Set: Joint Annual Report of Home Health Agencies, 1995**
Sponsor: Tennessee Department of Health
Source: Tennessee Department of Health, Health Statistics and Information
Description: Home health agency-based data by Health Service Area (HSA), county, and the state are available on classification of agency, accreditations and approvals, finances, availability and utilization of services, and personnel.

- **Name of the Study/Data Set: Joint Annual Report of Hospital Data, 1995**
Sponsor: Tennessee Department of Health
Source: Tennessee Department of Health, Health Statistics and Information
Description: Hospital-based data by Health Service Area (HSA), county, and the state are available covering services utilization, discharges, patient origin, inpatient newborn and maternal services, and selected financial data.
